01 PROFILE

Results-driven software developer with a proven track record in creating robust and scalable applications. Proficient in designing and implementing complex solutions, I am now seeking to transition my skills to the dynamic fields of machine learning and software development. Adept at translating business requirements into efficient solutions, I bring a collaborative approach and a passion for continuous learning to contribute to innovative projects in a challenging environment. Eager to leverage my technical expertise to drive technological advancements and achieve measurable success for forward-thinking organizations.

02 EMPLOYMENT HISTORY

10/2020 — 08/2022   **Developer at Tata Consultancy Services**   *Bangalore*

03 EDUCATION

Sep 2022 — Nov 2024   **CCSIT Kodungallur**   *Kodungallur*

Master of Vocation in Software Development (Data Analytics)

Currently pursuing a comprehensive software development and data analytics course, I am gaining hands-on experience in programming, software architecture, and the data analytics process. The curriculum emphasizes practical applications using industry-relevant tools and frameworks. Excited to leverage these skills to contribute to innovative projects and address evolving challenges in these dynamic fields.

Jul 2017 — Jul 2020   **College of Applied Science IHRD Vattamkulam**   *Edappal*

BSc Computer Science

Graduate with First Class
